

PHHC Funding

As a non-profit community-led organization and a Community Health Centre (CHC), the PHHC relies on funding support from our partners and community to continue to operate and provide the programs and services we do for our community.

The PHHC receives no core funding from the government, notably the Ministry of Health, which makes the grants and donations we receive so valued and appreciated.

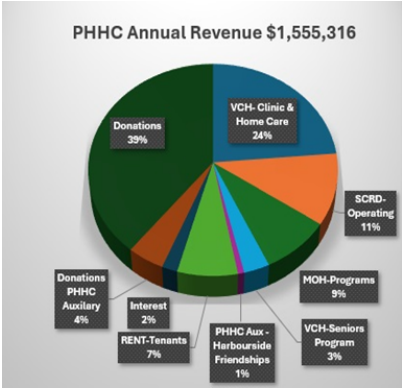

Table shows revenue sources from 2023-2024.

Community Support

Each year the generosity of the Pender Harbour community allows us to continue to operate programs, make upgrades to our building and stay operational. In 2024-2025 the PHHC received over \$90,000 from the Pender Harbour & District Health Centre Auxiliary. This funding directly supports programs such as Harbourside Friendship.

In early 2025 the PHHC ended our Health in the Harbour fundraising campaign after raising over \$700,000 in donations from community. Some of these funds have been used to make building upgrades and purchase much needed medical equipment.

The PHHC Board of Directors, staff, and patients thank the Auxiliary, Bargain Barn, and community for these generous donations. If you would like to learn more about donating to PHHC please reach out to us.

About Us

The Pender Harbour Health Centre is a community-led non-profit society that has been providing medical services and health and wellness programs to Pender Harbour and surrounding communities since 1976. PHHC is the only Community Health Centre (CHC) on the Sunshine Coast and our multidisciplinary team of healthcare professionals offer team-based care and programs that address the various social determinants of health.

Our Core Values:

- Responding to and strengthening our community
- Integration and collaboration across the health care continuum
- Honesty, integrity, and high ethical standards
- Integrated team-based care
- Supportive, respectful, and responsive work environment for staff
- Openness in communication
- Innovation and creativity

Providing access to quality, caring, and responsive health services for the Pender Harbour community.

**Monday - Friday
8am - 4pm**

Established Since 1976 – Over 49 years of providing quality healthcare to residents of Pender Harbour and surrounding communities.
